3. General Prescribing Information:

- a. All prescriptions must be written and signed by the provider in their own signature. We will not accept a prescription signed by a non-provider or a stamped signature.
- b. Prescriptions will not be accepted via telephone or fax.
- c. Non-controlled prescriptions and refills are valid for 1 year from the date originally filled.
- d. Write separate prescriptions for medications to be used in school.
- e. Most maintenance/chronic use, non-controlled prescriptions can be written for up to a 90 days supply.
- f. Prescriptions for Controlled Substances:
 - Controlled Substances must not be written on the same prescription form with a non-controlled drug.
 - Schedule II drugs must not be written on the same prescription form as Schedule III, IV, V drugs or non-controlled drugs.
 - Civilian prescriptions for controlled substances must have the prescriber's DEA number on the prescription and must be dated by the prescriber on the date of issue. Also, legibly print your name under your signature for name verification.

SCHEDULE II PRESCRIPTIONS:

- Are NOT refillable and are NOT alterable.
- Can not be taken over the telephone
- Exceptions to the 30 days supply policy:
 - Ritalin: 90 days supply
 - Adderal: 90 days supply
 - Dexedrine: 90 days supply

SCHEDULES III, IV, V PRESCRIPTIONS:

- The original fill must be within 30 days of the date written.
- Maximum dispensable quantity is a 90 days supply
Overall total quantity dispensed, including the original fill and all refills, must not exceed a 6 months supply.
- Maximum number of refills allowed is 5. All refills must be dispensed within 6 months of the original filled date. After 6 months, a new prescription is required even if refills remain. Appropriate time intervals between refill requests will be strictly enforced. Refills can be obtained up to ten days prior to need based on the number of days dispensed.

4. General Patient Information:

- a. Copies of prescriptions that have been filled at another pharmacy will not be honored. Original prescription(s) required.
- b. Due to staffing limitations "compounded prescriptions" prepared from separate ingredients cannot be filled.
- c. Turning in a new prescription will void any other prescription for the same medication regardless of when the previous prescription was written or how many refills remain.
- d. Refill requests must be called in ahead of time at (850) 283-7177 or 1-800-356-5273. Refill requests called in before 2:00PM will be ready for pickup the next normal duty day. Walk-up refill requests will be available the following business day.
- e. Due to storage limitations, prescriptions can only be held for five (5) duty days after they are filled.
- f. All new/refill prescriptions require the patient's ID card. If the patient is unable to come personally, a family member or friend may fill and/or pickup a prescription. However, they must bring the patient's ID and written authorization from patient.
- g. If prescriptions are written with "Drug Product Selection Permitted (or) Generic Substitution Permitted", the generic form will be dispensed. If the prescription is written for the brand name and specifies, "Medically Necessary" and the generic is stocked, no medication will be dispensed. To insure dispensability, if generic substitution is acceptable, please ensure the provider annotates the prescription appropriately.
